

The Cost of Doing Nothing?

Please consider the following:

- What is a life worth?
- What is lowering human suffering worth during a disaster?
- What is reducing overall emergency disaster care cost worth in dollars?
- What is reducing health care cost worth?
- What is Peace of Mind, less stress and worry of the future when a disaster strikes, worth to you?
- See our Psychological Benefits White Sheet.

The above questions depend on one's point of view and if we are talking about you or someone else, or do you consider everyone of equal value? Since every life is god given, one of a kind, irreplaceable, and can't be taken for granted, I believe we should protect all lives to the best of our ability, especially when disaster strikes and we now have known better ways to do that, that is we have solved many age old disaster problems that has plagued mankind since the time of man.
