

What is The Ultimate Survival Package?

Synopsis - The Best Multi-functional Survival Tool Ever made to Save Lives, Reduce Suffering, Lower Costs, and Protect Our Environments!

It is our all-new proprietary patented designed product, combined with a transformed Telescopic Ladder and Life Essential Elements that creates the many functions and uses of this revolutionary product. Now people have a real choice in their survival that Changes Everything for Everyone on Earth that accommodates mobility of essentials, if needed, i.e., people who can't shelter in place!

Product is the First of it's Kind and Class, providing holistic survival solutions, excellent value, and sets the highest Emergency Preparedness Industry standard in the world! Also great for Homeless People, First Responders, Camping, and Outdoor Adventure Gear Industries. Product includes:

- Three basic product sizes, one for people 4 feet or less in height and another for people over 4 feet tall and/or weight of up to 350 pounds, plus an extra wide unit.
- A Self-transport means for everything, via 3 basic ways: by hand, 2-wheel Trolley Cart or 4-wheeled Pull Cart, by backpack, and or combination of stated ways
- Stretcher- a means to transport a person or object. Only 26 inches in closed position to 6 feet 6 inches long in open position by 18 inches wide and 7 inches deep
- Gurney-a wheeled stretcher with our proprietary patent
- Gurney that can be Helicopter transported and used as a hanging Hammock
- Off the ground sleeping platform, raising a person 12 inches clearance above ground
- Refuge Tent (customized automatic pop-up unit) to keep elements of heat and cold at bay. Utilizes Air Mattress, Arctic Air-cooling Unit, and other custom parts
- Storage space for Self-sustaining Package of Life Essentials, 7 days of perishables (water and food), years of use for non-perishable items (Trolley Cart, Tents, Water Floatation Device) and many other tools to support one's own life or other lives
- Anti-theft protection of all goods via covering bag made of anti-cut/ bulletproof material plus a locking cable with combination lock attachment device
- Solar Cooking Unit, boil water, cook hot food, sanitize items and desalinate ocean water
- A detachable ladder with handless, for climbing or bridge over a void area
- GPS Tracking and Water Floatation Vest device. 30% of all disasters are water related
- And the list goes on and on...like the list of special materials used to accomplish such a feat, for instance metal parts built out of stainless steel or magnesium metal for lighter weight and higher strength. Special Parabolic Solar Sun concept for cooking means. Custom Injection and Blow Molds to produce our parts, etc. and much, much more!

All the above is latest technology, design innovation, materials, and manufacturing for 2026⁵
